

30 September 1953

MEMORANDUM FOR: Colonel White

SUBJECT : Commo Progress Report for Second Quarter, 1953, and
Pertinent Details as to Contracts

1. The Chief, Logistics Office, on 28 August 1953 forwarded for your information the Commo Progress Report for the second quarter, 1953, (Tab C), together with a memorandum (Tab B) advising that the Report describes 27 projects, of which 9 are being accomplished by Commo and 17 are under contract. The memorandum was supported by a list reflecting, for each project under contract, the project number, contract number, contractor, and title of the project.

2. As the memorandum did not give sufficient information to show the work load this type of project places on Logistics, the matter was returned for elaboration. A memorandum supported by a list of the contracts reflecting project number, contract number, contractor, title of project, dollar amount, date of contract, completion date, present status, and type of contract is attached as Tab A.
